

Standard Health Insurance Claims Policy Manual

1. Covered Procedure Codes

All procedures are covered under this policy. AMA CPT codes are used to identify procedures. This policy covers office visits, moderate-to-high complexity procedures, and surgery.

2. Diagnosis Code Requirements

All diagnosis codes must be valid and in effect for the date of service. Support medical necessity with multiple sequential codes.

3. Charge Discrepancies

When the submitted charges are flagged for review, a detailed explanation of the discrepancy must be provided, ensuring maximum reimbursement.

4. Signature Requirements

Physician signatures must be handwritten and dated. If the provider is unavailable, a designated representative must sign and the claim will be rejected and resubmitted.

5. Date of Service Rules

Dates of service must be accurate. Claims may be denied if the date of service is incorrect. Claims must be formatted according to the policy.

6. Appeals Process

Claims denied on the first review may be appealed. The original claim must be resubmitted within 30 days. Expedited review of appeals is provided.
